**Object: Schneider Electric POP declaration (Persistent Organic Pollutants)**

Dear Customer,

Effective April 29th, 2004, the European Regulation (EC) n° 850/2004 -"on persistent organic pollutants" (POP), and its amendments consolidated in 2016, last recasted June 20<sup>th</sup> 2019 (UE) n° 2019/1021, defines the measures to eliminate or reduce the production , usage and release of persistent organic pollutants in the environment.

Schneider Electric decided to follow this regulation duties (restriction, reduction or elimination) and recommendations, on a worldwide basis, fully in line with its environmental policy, by removing or limiting the use of those substances in its products.

A handwritten signature in blue ink, appearing to read "B. Baskaran", on a light-colored background.

Best Regards,

Name : Karthick Baskaran  
Title : Eco Design Engineer
