

Statement of Work

Maintenance Service

Service

1.0 Executive Summary

The On-Site Warranty Extension extends the standard factory warranty coverage of the UPS and/or PDU. In addition to on-site remedial repairs covered during the factory warranty period, the On-Site Warranty Extension includes one Inspection Visit during the agreement year. This service provides a seamless extension of the factory warranty by one or two years depending on the customer's preference and geographic availability. This service can only be purchased concurrently with the sale of the UPS or PDU. Please contact your certified Schneider Electric CPCS sales representative for additional details.

1.1 On-Site Remedial Repairs

Schneider Electric Critical Power and Cooling Services (CPCS) will dispatch certified personnel to provide repairs in the event of a problem. All parts, travel and labor are included.

The standard response time is Next Business Day with upgrades to 8-Hour and 4-Hour response available for purchase. (Not available in all locations. Please consult with your local Schneider Electric CPCS representative for coverage in your area). The 8-Hour and 4-Hour upgrade options are available on a 7x24 basis, including weekends and holidays

1.2 Inspection Visit

Included with the Onsite Warranty Extension, the Inspection Visit provides an external equipment inspection in addition to system status and measurement reporting. The Inspection Visit is available during normal business hours. A 7 X 24 scheduling upgrade is available, including weekends and holidays.

3.0 Details of Service

3.1 ON-SITE REMEDIAL REPAIRS DELIVERABLES

The On-Site Warranty Extension provides Schneider Electric CPCS certified technicians at the customer's location within a specified period of time to diagnose, repair, and test the system in the unlikely event of failure. The following table lists the details of the service tasks provided with this visit.

Diagnose, Repair and Test	
Activities	Description
Check UPS Status	Schneider Electric CPCS will document the status of the UPS upon arrival to the site (i.e. On-Line, On-Battery, Bypass, etc.)
Check UPS Alarms	Schneider Electric CPCS will view event logs and display for alarms / information on the UPS.
Diagnose	Schneider Electric CPCS will troubleshoot reported issue as required.
Repair	Schneider Electric CPCS will replace any defective parts and repair the system as required.
Test	Schneider Electric CPCS will complete functional tests conducted after corrective action is taken.
Prepare and Deliver Report	Schneider Electric CPCS will describe the defect/failure and explain the corrective action taken. A detailed report will be provided.

3.2 INSPECTION VISIT DELIVERABLES

The Inspection Visit provides Schneider Electric CPCS certified service personnel at the customer's location on a pre-determined scheduled date. The following table lists the details of the service tasks provided with this visit.

Activities	Descriptions
Perform Visual Inspection	Schneider Electric CPCS will inspect UPS solution to ensure that all system components are clean and functioning as they should be.
Perform Environmental Inspection	Schneider Electric CPCS will verify and document that the system's environment is within specified operating conditions including but not limited to room temperature, airflow, dust contamination, etc.
Deliver Documentation	Schneider Electric CPCS will deliver site report to customer documenting system checks and measurements. Schneider Electric CPCS will make recommendations regarding equipment repairs or enhancements if required.

4.0 Assumptions

The successful performance of the tasks defined in this Statement of Work is based on the following key assumptions, which are agreed to by Schneider Electric CPCS.

- All services performed on-site by Schneider Electric CPCS will be executed during the Schneider Electric CPCS business hours unless otherwise contracted by the customer.
- The Onsite Warranty Extension Service is available for 1 to 2 years based on customer's preference and geographic availability. Please contact your certified Schneider Electric CPCS sales representative for additional details.
- Inspection Visits are available during business hours. A 7 X 24 scheduling upgrade is also available for purchase. Please contact your certified Schneider Electric CPCS sales representative for additional details.
- All services are performed on-site by certified Schneider Electric CPCS service personnel.
- This service is only available for purchase at the time of the initial purchase of the UPS or PDU.
- The UPS & PDU must be kept in an environment that adheres to manufacturer specifications.
- The Onsite Warranty Extension service is non-renewable.
- This service applies to a customer location with standard site and product access.
- Geographical restrictions may apply. Please verify the service coverage and response time for your location with your local APC by Schneider Electric office.
- Some aspects of the service definition presented in this document may vary by location. In the case of a conflict between the service definitions contained on this Statement of Work and the local service definitions the local service definitions will prevail. For more information, please refer to your Certified APC sales representative.

The following items **are not included** in the scope of this service:

- Support for third party equipment
- Replacement of batteries
- Proactive replacement of wearing parts

5.0 Scope of Responsibility

The items stated here are responsibilities of both Schneider Electric CPCS and the customer.

5.1 SCHNEIDER ELECTRIC CPCS RESPONSIBILITIES

- Meet the customer's service schedule date.
