

Multi-Way Dimming with BLE Control using Saturn/ Saturn ZEN

Typical multi-way dimming using the Wisier Micro Module CLP5010-0001 and Momentary Bell-Press 60PBBP

The wiring diagram shows a typical multi-way LED Lighting dimming control set up using 60 Series Pushbutton bell-press and Wisier Micro Module Dimmer. With the Wisier Micro Module connected with 60 Series bell-press. The 60 Series bell-press will work like your everyday pushbutton dimmer/ switch and will switch on momentarily press, dim on hold and stop when released. Please be mindful of all relevant standards and product requirements such as minimum loads and load types.

If unsure, please talk to your local sales representative or call Clipsal customer care on 13 73 28.
