

# NetShelter CX Serial Number Location

The serial number for the NetShelter CX can be located inside the left rear door just under the top hinge. The 12 character number on the bottom is the serial number.

## NetShelter CX Mini Serial Number Location

Looking into the rear of a AR400MV, on the bottom right hand side of the cabinet next to the PDU you will find a small white label adhered to the bottom panel.

On this label you will find 2 numbers. The top 8 character number is the model number and the bottom 12 character number is the serial number.
