

NetShelter® SX Networking Enclosures

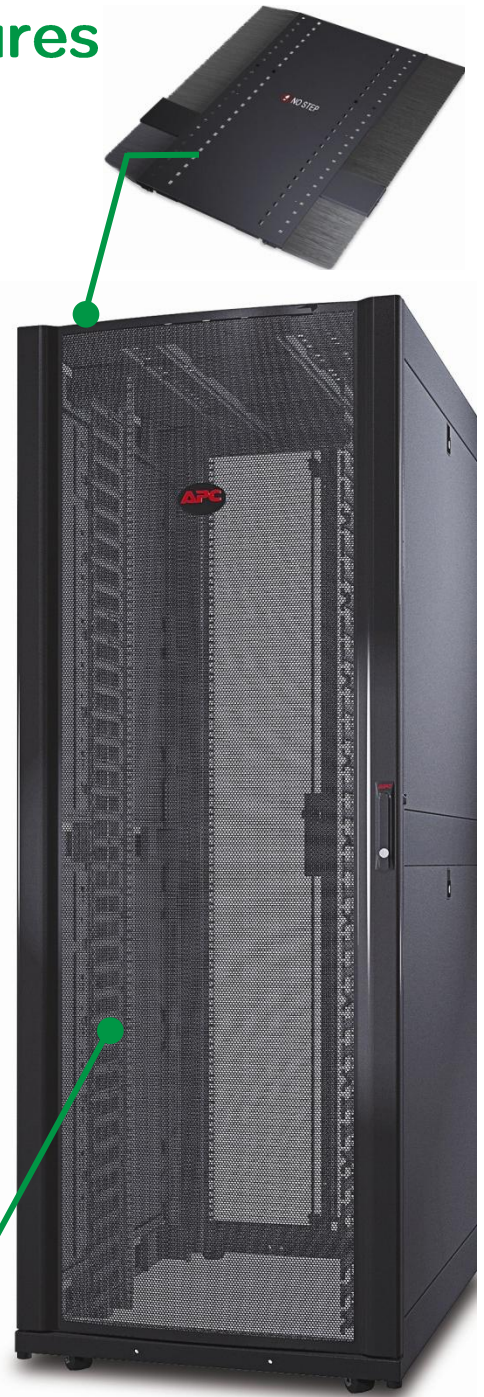

Maintains the NetShelter SX design while offering improved networking application support and a superior solution for side airflow Cisco networking switches

Key Differences NetShelter SX AR3x4x vs. AR3x5x 30in Wide Enclosures

- > Finger-style vertical cable managers included and preinstalled
- > Mounting rails preset for networking applications
- > Additional vertical cable management channel for more cable capacity
- > Open mounting rails improve side-to-side airflow
- > Designed to be used with Side Airflow Duct Kits for Cisco networking switches
- > Roof has two large openings for exiting large bundles of cable and the openings are covered with brush strips for air containment

Additional cable management space!
