

NetShelter CX2 Wall Clearance

- The exhaust fans of the NetShelter CX2 vent to the sides. The back of the CX2 can be placed against a wall if desired.
- If the CX2 is being installed in a corner please leave at least 6 to 8 inches of open space between the side of the NetShelter CX2 and the wall.
- It is not recommended to install a NetShelter CX2 where the back and both sides are against a wall.
