

Step 1: Turn off your computer's firewall. (optional)

Your computer's firewall may block the update feature. If the update fails, be sure to turn off the firewall.

Step 2: Open SNMP Manager

On the Taskbar, click on the arrow up to show hidden icons. Right click on the SchneiderUPS icon and click SNMP Manager.

Step 3: Select the FTP server IP address.

NOTE: If applying upgrade for SNMP Web Server in LAN, FTP server IP address will be IP address of current PC in LAN. If applying upgrade for SNMP Web Server in specific networking, FTP server IP address will be IP address of current PC in Internet.
