Subject: Reduction of Lead in Drinking Water Act

To Our Valued Customers:

In an effort to communicate compliance with the Reduction of Lead in Drinking Water act passed in January, 2011 and scheduled for implementation on January 4, 2014, we are offering the following as confirmation that the Square D by Schneider Electric products listed below have received private third party certification from NSF International for lead free compliance.

Pumptrol<sup>TM</sup> pressure switch part numbers beginning with 9013FR, FS, FT and FY standard product configurations comply with NSF/ANSI 61 Annex G, NSF/ANSI 372 and conform with lead content requirements for "lead free" plumbing as defined by California, Vermont, Maryland, and Louisiana state laws and the U.S. Safe Drinking Water Act due to take effect January 2014.

Pumptrol<sup>TM</sup> pressure switch part numbers beginning with 9013GM, GS, and GH standard pressure switch configurations comply with lead content requirements for "lead free" plumbing as defined by California, Vermont, Maryland, and Louisiana state laws and the U.S. Safe Drinking Water Act due to take effect January 2014.

Lead free as defined by the Reduction of Lead in Drinking Water act refers to <0.25% weighted average lead content in relation to wetted surface of pipe, fittings, and fixtures in systems delivering water for human consumption.

The 9013F and 9013G Pumptrol pressure switch carton and product label inside the cover will also display the identifying mark from NSF International. See the photos on the following this page for images of the labeling you can expect to see with the products.

If you have additional questions or require clarification, please don't hesitate to contact me at (919) 266-8228 or [ginger.broussard@schneider-electric.com](mailto:ginger.broussard@schneider-electric.com) . Our commitment to reliable quality products and to serving our customers remains stronger than ever. We deeply value your business and continued support.

Sincerely,

*Ginger Broussard*
